DEFRA (Ref: MO43) For Weather Forecast Planning Issued on Thursday, 22 June 2023 at 05:37 Local time

Air Quality Forecast for the UK

Issued by the Met Office

Today: Ongoing very warm weather and light winds will allow air pollution to build to give widespread Moderate levels across a swathe of eastern and central England. Low levels are expected elsewhere.

Tomorrow: Increasing winds and outbreaks of rain will likely restrict areas of Moderate air pollution to the far east of England. Otherwise Low levels will persist.

Outlook: Very little change is expected with Low levels persisting across much of the UK, but still the likelihood of areas of Moderate across eastern England, most likely on Sunday
